

Automac 55 più

The Automac 55 più is incontestably the most widely-used industrial machine for packaging fresh products in stretch wrap. This packaging machine is ideal for fresh packaging of vegetables, fruit, meat, fish, poultry and cheese. The Automac 55 più is also distinguished by extremely high operational reliability. The machine has a standard speed of 55 packaging units per minute. This machine is ideal for packaging under demanding circumstances and can be expanded with various feed belts, output belts and other options.

The Automac 55 più is a flexible, easy to operate packaging machine. All actions are clearly shown in a touch screen, which makes incorrect actions almost impossible.

Technical data

Machine	Automac 55 più
Application	Packaging of fresh products on trays
Technology	Stretch wrap
Operation	Fully automatic
Capacity	Up to 55 strokes per minute
Options	Extension of the feed belt Output roller belt Second film roll cradle
Electrical connection	400 V, 3 phase + 0 / 50-60 Hz – 4.7 kW
Machine dimensions	265 x 153 x 134 cm (width x depth x height)
Weight	630 kg
Certification	CE
Packaging format	Minimum: 120 x 120 x 10 mm (l x w x h) Maximum: 230 x 320 x 160 mm (l x w x h)
Film	Stretch wrap
Film width	From 330 to 550 mm
Film thickness	14 to 35 microns

The above values are indications and may vary with individual machines.

TenPack supplies innovative and often unique solutions for packaging all types of food. We represent the Fabbri Group, Italian Pack and Enterline manufacturers in the Benelux region. TenPack also has a number of in-house solutions that are offered world-wide.

Advice

TenPack has its own account managers, so that we can offer you good advice on the possibilities of our solutions for the products you need to package.

Technical service

TenPack has a service unit covering all the Benelux countries, with engineers operating from their own regions. Our engineers all have broad experience with the systems supplied by TenPack and are therefore able to provide excellent service in installation, maintenance and solving malfunctions.

Parts

TenPack has all the usual parts in stock, both in the central parts warehouse and in the engineers' cars and vans. This keeps any downtime in the case of a malfunction to a minimum. TenPack gives high priority to the continuity of your business operations.

Preventive maintenance

Preventive maintenance can be performed for every machine supplied by TenPack. Preventive maintenance helps to extend the life of the machine and improve its safety and reliability.

About TenPack

The name TenPack is new and was only introduced in 2017. However, our company is not a new one. TenPack arose from mergers of different companies at different times. These companies are Conpax Verpakkingstechniek, Eselbe, Servo-Wrap and R.D. De Jong.
